2018 Spring Educational Conference
HYATT REGENCY TULSA
100 East 2nd Street
Tulsa, OK 74103
admin@cranecertification.org

2018 Spring Educational Conference is filled with vital information for crane surveyors and two dynamite field trips. The primary goal of CCAA has always been to advance the capability and professional status of crane surveyors. The following program outline affords attendees the opportunity to hone their crane surveying skills.

The conference will begin with a reception and social time Sunday evening. This is a good time to renew friendships and “talk shop”.

Speakers will present information on various types of crane inspections, proper repair of structural damage, the use and application of limit switches, risk management for surveyors, and using modern technology in crane inspections.

Field trips are scheduled to visit PACCAR Winch and Crosby manufacturing plants.

Monday evening will be open to enjoy the local restaurants and interesting sights.

A short business meeting will be conducted for the general membership and Board of Directors meetings will be held before and after the conference.

CCAA Educational Conferences are programmed to bring important “how to” information to the surveyor so that we can all benefit from each other’s experiences and capture the best practices that are available in our field. This conference is for YOU!

RESERVATIONS PROCESS & BOOKING WEBSITE
